

Lucca, 5 September 2017 – MAIOR is pleased to announce that it has joined Clever Devices, a leading American company in providing intelligent transportation systems (ITS).

Clever Devices is a leading provider of ITS solutions in the United States, with more than 350 employees and 250 customers. Many of North America's largest public transportation agencies including New York, Toronto, Chicago, Washington, DC and Miami use Clever Devices technology. The company is based in Woodbury, New York and has offices around the United States, Canada and Brazil. Founded in 1988, Clever Device's portfolio of innovative transportation solutions include fleet management, safety and security and passenger facing solutions that are strongly aligned with the scheduling and optimization solutions that MAIOR has delivered to the Italian and international public transportation markets for over 28 years.

MAIOR will operate as a wholly owned subsidiary of Clever Devices and will maintain its headquarters in Italy.

"MAIOR and Clever Devices take the challenge together to enhance public transportation worldwide," said Leopoldo Girardi, CEO of MAIOR "Our Italian Team will continue to design and develop MTRAM, the leading choice for transit scheduling optimization in Italy, making it more powerful and efficient to face the new global challenges. At the same time, we'll have the possibility to offer our customers high-tech ITS solutions natively integrated with MTRAM."

"Our customers are continuously asking us for scheduling solutions and MTRAM enables us to fill that need," said Frank Ingrassia, CEO of Clever Devices. "The addition of MAIOR's portfolio allows us to provide scheduling solutions to US customers with the same great level of service they have come to expect from Clever Devices for over 25 years".
